

WAM ■■■■, IFMS ■■■■, Helpline ■■■■, Delegation ■■■■ — ■■ ■■■■■■■■ ■■■■ ■■■■■■■■

WAM shutdown, IFMS broken, Helpline silent, No delegation — a complete investigative report

~200 PWD Divisions affected	■20L+ Outsourcing cost/Division/year	■40 Cr+ Annual state-level loss	14 Years WAM Portal worked (2012-2026)
10 Jul WAM shutdown, payments stopped	4 Bugs Documented in official complaint email	6 Months AS-ID delay: Physical Oct 2025, IFMS Apr 2026	0 Helpline/Email replies — Zero response
DSC At computer centre — IT Act violation			

WAM Portal — Foundation & Promise (2012)

[illegible]

In 2012 Rajasthan launched wam.rajasthan.gov.in integrated with PayManager for direct contractor payments. For 14 years, despite flaws, the system functioned. Payments were processed. The last successful payment was 6 July 2026.

WAM's Hidden Flaws — Never Fixed

1: Bill — contractors bill 2:
 — window IFMS
3.0

Flaw 1: Bill Submission only on paper — contractors never self-submitted. Flaw 2: Zero public transparency — no citizen window for bill status or payment history. Both flaws carried into IFMS 2.0 and 3.0.

IFMS 2.0 — Ambitious Reform, New Entanglements (Jan 2025)

██████ 2025 ███ 7 ██████████ IDs ███████ ████████ ███ ███ ██████████: Document
overload, Electronic MB █████ ███████ ███, Outsourcing ██████████ — █20 █████/Division/██████,
████ ██████████ █40 ████████+████

January 2025: 7 mandatory IDs per work (Work-ID, AS-ID, TS-ID, BOQ-ID, Package-ID, WO-ID, Abstract-ID). Electronic MB on mb.rajasthan.gov.in. Three new problems: Document overload, electronic MB remained on paper only, outsourcing explosion at █20L/Division/year totalling █40 Cr+ state-wide.

Ch.4 | IFMS 2.0 — Scam Accountability

IFMS 2.0 Dark Side — Scam & Accountability Collapse

Morphed Photo Scam: progress photos portal OTP: Divisional Accountants OTP operators accountability

Morphed Photo Scam: Digitally edited photos uploaded as progress evidence — work not done on ground. OTP Abuse: Divisional Accountants gave their OTPs to computer operators. Government accountability fully outsourced to unqualified private parties.

Ch.4B | AS/FS ID HO Credential

AS/FS ID Delay Scam & Head Office Credential Bribery

Physical AS/FS: Oct 2025 Tender: Jan 2026 bill: Apr 2026 — FS-ID absent Division staff Apr 2026 AS-ID — 6 Contractor 'secret bytes' HO Operator HO credentials FS-ID generate IP Audit Trail

Physical AS/FS issued Oct 2025. Tender Jan 2026. Work Order Jan last week. First bill Apr 2026 — FS-ID absent. Division staff creates AS-ID in April — 6 months late. Contractor gets 'secret bytes', approaches HO. Certain operators hold HO officer login credentials and generate FS-ID instantly for bribe. IP Login Audit can expose this trail.

Ch.5 | — WAM, IFMS 3.0

Black July — WAM Shutdown, IFMS 3.0 Not Ready

2 Jul: Training + IFMS 3.0 6 Jul: WAM payment 10 Jul: WAM 1 Aug: Portal — Vendor names, Security deposits integrate, Bills

2 Jul: Training given, IFMS 3.0 announced. 6 Jul: Last WAM payment. 10 Jul: WAM fully shut. 1 Aug: Portal still broken — vendor names missing, security deposits not integrated, bills completely stopped.

Ch.6 | IFMS 3.0 — ,

IFMS 3.0 — Secure on Paper, Hollow on Ground

vision: Maker-Checker-Approver verification: 90% XEN IFMS portal inbox login operator roles

Government vision: Maker-Checker-Approver three-tier verification. Ground reality: 90% XEN cannot even login to IFMS portal inbox. Engineers handed OTPs to operators. One external operator performs Maker + Checker + Approver roles — three-tier verification soul destroyed.

Ch.6A | Maker-Checker-Approver Delegation Matrix

Ideal Maker-Checker-Approver Delegation Matrix

framework: AS&FS: AE/SDC→Div Auditor→XEN | Sanction: Div Auditor→Div Accountant→XEN | TS/BOQ/Package/WO/Abstract: AE→TA→XEN | Vendor Bill & Refund: AE/SDC→Div Auditor→XEN Statutory Circular —

Technical expert proposed framework: AS&FS: AE/Sub-Div Clerk→Div Auditor→XEN | Sanction: Div Auditor→Div Accountant→XEN | TS/BOQ/Package/WO/Abstract: AE→TA→XEN | Vendor Bill & Refund: AE/Sub-Div Clerk→Div Auditor→XEN. Government has issued NO statutory circular mandating this delegation — fatal omission enabling one-operator monopoly.

Digital Signature Abuse — DSC at Market Computer Centres

No XEN has logged into IFMS. Their Digital Signature Certificates are kept at market computer centres. The operator uses the XEN's DSC to sign as Maker, Checker, AND Approver. IT Act 66C: using another person's digital identity = 3 years imprisonment. This crime is happening daily in government offices.

1 August 2026 — Portal Status: 4 Documented Bugs

Official complaint email to employeehelpdesk.ifms@rajasthan.gov.in — no reply. Bug #1: Vendor selection list incomplete, not alphabetical. Bug #2: Security Refund balance not showing. Bug #3: July Monthly Report non-responsive. Bug #4: Disbursement Engine WAM page blank.

IFMS Helpline: No Contact, No Solution

All IFMS 3.0 helpline numbers non-responsive. Official email employeehelpdesk.ifms@rajasthan.gov.in silent. NIC support desk not functional. No escalation matrix. No dedicated 24x7 toll-free line. Officers resort to unofficial WhatsApp groups.

Seven Immediate Demands

1. Statutory Delegation Order (Gazette Notification). 2. Citizen Transparency. 3. DSC must stay with officer — not at computer centre. 4. Mandatory comprehensive training. 5. Portal bugs fixed with deadline. 6. 24x7 dedicated helpline. 7. Independent Monitoring Committee.

Call to the Fourth Estate — 10 Media Demands

- 1.RTI on delegation circular 2.AS/FS backdating CAG audit 3.IP Login Audit→ACB 4.XEN Login sting 5.DSC location check 6.Live helpline call test 7.Morphed photo expose 8.Public audit demand 9.One operator three roles expose 10.Public monitoring mandate.
